## EDUCATION

- |  |                                  |
|--|----------------------------------|
| • Bachelor of Engineering in Computer Science (CGPA: 8.78)<br>Government Engineering College, Rajkot | 2021 – Present<br>Gujarat, India |
| • XII Science GSEB (Percentage: 84.30%)<br>Sorath International School, Junagadh                     | 2020 –2021<br>Gujarat, India     |

## TECHNICAL SKILLS

- Languages: C, Advance Java, Dart, Python (Basic).
- Technologies and Frameworks: HTML, CSS, Hibernate, Spring Boot, Flutter.
- Database & Unit Testing: MySQL, Junit.
- Technical Foundations: Problem Solving, DSA, OOPs, OS, CN, System Designing.

## EXPERIENCE

### Java Developer Intern | TechnoHacks Edutech

 [Github](#)

- Contributed to Java development projects and gaining hands-on experience in coding and debugging.
- Implement a Simple To-Do List console-based application for task management.
- Implement a Rock Paper Scissor console-based game for fun and enjoyment.
- Implement a Number Guessing console-based application for entertainment.
- Tech Stack: Java, OOPs, DSA.

## PROJECTS

### Invoice Processing | Html, CSS, JSP, Servlets, Hibernate, Java, MySQL

 [Github](#)

- An invoice processing system is a digital solution designed to streamline the management and handling of invoices within an organization.
- It helps organizations streamline their accounts payable processes, reduce manual errors, improve efficiency, and gain better visibility and control over their financial operations.

### Portfolio Website | Html, CSS, Java

 [Github](#)

- Developed to display information about my skills, experiences, and projects in a professional and engaging manner.
- Implemented features for downloading my cv, sending messages directly to me, view an extensive list of things I have worked on.
- All Professional information about me is shown on this website.

### Any.Do | Html, CSS, JSP, Servlets, Hibernate, Java, MySQL

 [Github](#)

- The Any.do is a simple yet powerful to-do list project designed to help users organize their tasks, manage priorities, and increase productivity.
- It provides an intuitive interface where users can easily add, edit, prioritize, and mark tasks as complete, ensuring efficient task management.

### Text Editor | Html, CSS, JSP, Java

 [Github](#)

- Text Editor is a text editing application designed to provide users with the ability to convert plain text into various formats and styles.
- It offers a user-friendly interface where users can input text and select from a range of conversion options to transform their text into different forms and directly copy to the Clipboard.

## CERTIFICATION & ACHIEVEMENTS

- Solved 200+ problems on [Leetcode](#) and other platforms.
- Achieved a top 25 ranking in the codegenie hackathon hosted by [Tark Technologies](#). Earning the privilege to advance to the final round of competition.
- I participated in the [SSIP hackathon](#) - Regional round at RK University, Rajkot.
- I lead my team in Eklavya hackathon organized by VVP Engineering College, Rajkot, and secured 4<sup>th</sup> Rank.
